Hey!
Did you know that in
Bavaria, Pretzels are the
Holy Grail of baking?
We take them as seriously as
we take our beer. I am so
proud to share these treats
from my homeland, so
you can experience pretzels
the way they were meant to be.

WE'RE KIND OF A BIG DEAL...

Do you know why our Bavarian delights don't taste like cardboard? It's not just because Claudia was born and raised in Bavaria that our desserts taste so heavenly. It's not just because she spent years perfecting the most authentic Bavarian recipes that our breads taste so divine. And it's not just because she collaborated with the most renowned Bavarian pretzel baker, Oswald Piller, that our pretzels taste unlike any other you've experienced.

PRE

HISTORIC

BEFORE RECORDED HISTORY:

—
In modern times, we recognize the majestic Pretzel Twist as a fluffy, salty, delicious Bavarian treat. However, it might surprise you to learn that this lovable morsel was the king of the Jurassic sea.

145.5 million years ago, Megapretzus Saltalis lurked the inland seas of Germany. Fossil evidence suggests that Megapretzus could reach as much as 46 feet (14m) in length, making it one of the largest marine predators of the Jurassic period.

You're Welcome

Claudia's healthy obsession is to bring you the most authentic flavors of Bavaria, that you can't find anywhere outside of her homeland. The "Apfelkücherl" (Apple Rings) and "Apfelstrudel" (Apple

Strudel) are as traditional as it gets when it comes to Bavarian desserts, and thanks to Prop & Peller, you can enjoy them right here on American soil. You're welcome! Or should we say, "Bitte!"
